- Early Non-Member rate $400  
- Regular Non-Member Rate $450

The Society for Experiential Education (SEE) 53rd Annual Conference focuses on the transformative power of new and emerging technologies, as well as various educational approaches, to revolutionize the field of experiential education.

Experiential educators from all industries and institution types are encouraged to contribute presentations, panels, and workshops. Topics can range from emerging technologies such as virtual internships, simulations, and immersive VR experiences, to people-first topics on developing emotional intelligence and promoting diverse, equitable, and inclusive learning environments that cultivate well-rounded individuals through international partnerships, alternative credentials, and applied experiences.

SEE’s 2024 conference theme embraces the exploration of novel paths and leverages cutting-edge tools and strategies to enhance learning experiences to propel learners toward a future where they can navigate challenges, contribute meaningfully, and thrive in a rapidly evolving world.

Invited presenters for the conference will also have the opportunity to submit an extended conference abstract to the Experiential Learning and Teaching in Higher Education (ELTHE) Journal as part of a Conference Proceedings special section. More information about the ELTHE Journal – as well as how you can submit research through the year – can be found [here](#).
